

**KAA/OT/MBD/0009/2024-2025**

**11<sup>th</sup> September, 2024**

To: All Tenderers

**TENDER NAME: SUPPLY AND INSTALLATION OF PARKING  
MANAGEMENT SYSTEM SERVICES AT  
KISUMU INTERNATIONAL AIRPORT**

**TENDER NO: KAA/OT/MBD/0009/2024- 2025**

**ADDENDUM NO. 5**

The following are tender clarifications/addendum issued regarding the above tender in accordance to instructions to tenderers clause 7 of the bidding document for the referenced tender.

No.	QUERY	RESPONSE
I.	<p>In the compliance matrix for minimum technical requirements, we are to provide EN 12635 standard certification or its equivalent. This is a European Standard that specifies the information to be provided by the door manufacturer and the components manufacturer to ensure safe installation, operation, use (including maintenance and repair) of doors, gates and barriers intended for installation in areas in the reach of persons, and for which the main intended uses are giving safe access for goods and vehicles accompanied or driven by persons in industrial, commercial or residential premises.</p> <p>However, the standard excludes doors that are intended for a different use than the one described in I.1 such as:</p> <ul style="list-style-type: none"><li>- lock gates and dock gates;</li><li>- doors on lifts;</li><li>- doors on vehicles;</li></ul>	<p>On the European standard; <b>EN 12635</b> bidders are required to restrict to the subject matter of car barriers for commercial premises.</p> <p>Both the EN standards and IEC standards focuses on the related industrial standards and regulations only. <b>EN</b> standards focused on European countries while <b>IEC</b> standards are now global standards.</p> <p><b>Please Note,</b> Due to the use of the terms "<b>or its equivalent</b>", bidders will not be non responsive for proposals under <b>IEC 61508</b> standards as it falls under equivalent standards. This criteria therefore remains as stated.</p>

|--|--|
| <ul style="list-style-type: none"><li>- doors mainly for the retention of animals;</li><li>- theatre textile curtains;</li><li>- railway barriers;</li><li>- barriers used solely for vehicles.</li></ul> <p>This European Standard does not also cover:</p> <ul style="list-style-type: none"><li>- products to be used in potential explosive atmosphere or on armoured doors;</li><li>- programmable devices (see IEC 61508 series);</li><li>- shock resistance of component (example IK code). We appreciate your consideration.</li></ul> <p>The Parking Management System required as per the technical requirements includes programmable devices (e.g., automated barriers, vehicle detection loops, or other automated control systems) that fall under IEC 61508 series.</p> <p>We are hereby requesting that the compliance requirement for EN 12635 be removed from the technical requirements since it is invalid for this application.</p> |  |
|--|--|

The closing/opening date remains **19<sup>th</sup> September 2024 at 11.00. a. m**

Kindly ensure your tender is valid for a period of **126 days** and your tender security is valid for a period of **156 days** from the NEW closing/opening date of **19<sup>th</sup> September 2024 at 11.00. a. m**
